

6 Months Software Quality Assurance Internship

PATQA0112

PLEASE READ CAREFULLY BEFORE CONTINUING.

ESPA or European Student Placement Agency is a recruitment agency whose goal is to find high quality internships for European students and recent graduates in the UK. We work closely with our host companies to ensure the positions provide the candidates with a great experience, both professional and personal.

REQUIREMENTS: ESPA vacancies are open to all EU passport holders able to travel to the UK for an educational work placement, without the need for visa documents. You have to still be a student or have graduated in the last 12 months. Any student who is unsure of their visa situation should check with their university before applying.

BENEFITS: All ESPA's services are **free** for students and alumni. The benefits are:

- 1) Paid Accommodation.
- 2) Paid Utility Bills (electricity, gas, water and council tax) + Internet Access
- 3) Commuter travel to work (accommodation will be found within an acceptable commuting distance from the workplace, if that requires more than a sensible walk then a bus/train ticket will be provided).

This will be sourced and managed on your behalf by ESPA. **These benefits have an approximate value of 700€-1000€ per month (depending on location).**

There is no salary over and above the benefits offered, unless specifically stated.

The Host Company

This company is a global pioneer in the use of web-based solutions for digital pathology. Specialising in image management and the rapid analysis of tumor tissue, the company provides innovative software for use in drug discovery research, clinical sectors, biomarker analysis and education.

Role

The host company is currently looking for a candidate to join their **Quality Assurance team** as part of their main purpose, developing web-based products based on medical informatics and imaging technologies in medicine. They offer a friendly, dynamic and inclusive working environment with like-minded, talented and passionate individuals. This is an exciting time for the company and presents candidates with an opportunity to join a rapidly expanding organisation involved in ground-breaking technology that has the potential to dramatically impact on medical science through cancer research detection.

The ideal candidate will be a **proactive and self-motivated** student or recent graduate who is looking for a challenging and rewarding opportunity in which they can put their knowledge into practice.

Duration

6 months.

Location

Belfast is the capital and largest city of Northern Ireland. Very dynamic city with a population of 300 000.

Languages

English should be B2/C1.

Start date

January 2016.

Tasks

The successful candidate will work as **part of the existing QA team** and tasks will include, but not be limited to:

- Analysing User Stories and converting them into test packs outside of the happy path
- Writing test scripts for manual testing
- Coding up test scripts for the Automation framework
- Carrying out manual test packs
- Debugging raised defects
- Troubleshooting configuration issues

Personal Skills

- Strong relevant commercial experience.
- A good understanding of test methodologies and processes – for web and mobile applications
- Experience of creating of test scenarios/scripts
- A working knowledge of Microsoft operating systems.

Automation testing skills:

- Familiar with **Agile**.
- **Watir**.
- **Ruby**.
- **Cucumber**.
- Knowledge of other Coding languages.

Other skills:

- Good logical thought process for QA.
- Organization skills, initiative and proactivity.
- Problem solver skills.
- Team player.
- Time management skills in order to accomplish deadlines.

How to apply

STEP 1) Please, register with us at <http://www.espauk.com/students/register-with-us>
